

Paying for Care

Paying for the care you or your loved one needs can be a struggle and understanding your options can be stressful. Here are payment options to consider:

Private pay

Private pay means you use your own resources and finances to pay for the care you receive. Any services you receive at Sonrisas, can be paid for by private pay. In considering this option, talk to your financial adviser, attorney or social worker to understand if this option is best for you.

Long-term care insurance

Long-term care insurance policies exist specifically for helping you pay for the services you or your loved one need over a long period of time.

Unlike Medicare, long-term care insurance policies often cover services obtained through assisted living communities, nursing homes and in-home care services.

Medicaid

Medicaid is a federal- and state-funded program that help pay for health and medical expenses for individuals with very limited income and resources. Unlike Medicare, Medicaid may also cover long-term care services such as nursing home stays, assisted living services and in-home personal care. Coverage and eligibility for Medicaid varies from state to state. To determine if you qualify Medicaid funding in Wisconsin, contact the [Aging and Disability Resource Center of Dane County](#).

Veterans Affairs benefits

Hundreds of thousands are eligible for a little-known VA benefit, the Veterans Aid and Attendance (A&A) Pension, which includes spouses of veterans. Funds can be used for assisted living at many facilities. To determine if you or your loved one is eligible to receive this benefit, contact the [Veterans Benefits Administration and ask about the Pension Aid & Attendance Program](#).
